

Sport and PE funding 2017–2018

This year we intend on using our budget of £16,000 in the following ways:

- Improve our resources as audited by our school council and games leaders.
- Provide opportunities for staff to access relevant and up to date courses to support the teaching and learning of PE across the whole school.
- Train members of staff in and offer a new orienteering after school club by Summer 2018.
- Work with a dance instructor from Free Spirit Academy of Dance to deliver Dance in Reception, Year 1 and Year 2.
- Begin to purchase PE equipment that will be needed for when we extend to a Primary school in September 2018.
- Provide more opportunities for pre-school and nursery pupils to visit Play Max to support their physical development.
- Allow our pupils to experience outdoor education at Water Park.
- Provide swimming lessons for Year 1 in Spring and Summer terms, Reception in Summer Term and throughout the academic year in Year 2 lead by certified swimming instructors.
- Develop balance skills and spatial awareness of EYFS pupils through Yo-Kids yoga sessions.
- Provide children with behaviour difficulties a space to access Yo-Kids sessions, used as a soothing and calming place.
- Offer an after school karate club run by KS karate school for 25 children who are currently working towards various belts.
- Ensure all children have access to a physical after school club.
- Allow children to experience a sports fixture to see sports persons, local or national, competing in a sport.
- Take part in a local dance festival, UDance, to collaborate with other schools.
- Take part in the Happy and Healthy Lifestyle Project in conjunction with FESP.
- Provide opportunities for KS1 children within local competitions e.g. Gymnastics and Multi-sports/Sports hall events
- Provide an active Breakfast Club for all children to ensure a healthy start to the day and wake children up ready to access their learning.

We will ensure these improvements are sustainable by continuing as staff to be good role models, encouraging children to live healthy and active lifestyles, both in school and outside of school. Providing good links with local schools, local clubs and local health centres.
